PROFESSIONAL SUMMARY

Master of Cybersecurity (Monash University, Australia) and B.Sc. in Computer Science & Engineering (Stamford University Bangladesh) with 5+ years of software engineering experience and 13+ years teaching Mathematics, Programming, Databases and Computer Science. Skilled in Agile delivery, project management, technical customer success and technical account management — combining deep technical knowledge with the communication skills needed to lead teams, support enterprise clients and mentor students from school through university level.

CORE SKILLS

Agile & Scrum delivery	Technical Account Management	Cybersecurity (OWASP, ZAP, Burp)
Project Management	Technical Customer Success	Cloud — AWS, Oracle Cloud, Docker
Stakeholder communication	Solution Architecture	Programming — Python, Java, JS, PHP, C/C++
Mentoring & Training	Pre-sales / Onboarding	Databases — MySQL, MongoDB, Oracle

WORK & TEACHING EXPERIENCE

Private Home Tutor — Mathematics & Computer Science

TutorMentor Near Me · London, United Kingdom | 2024 – Present

- One-to-one face-to-face home tutoring for KS3, GCSE, A-Level Maths and school → university Computer Science.
- Structured lesson plans, progress tracking and exam preparation aligned with UK curriculum.
- Tailored support for students who struggle in large classes — building confidence before speed.

Customer Technical Advisor

Futu Securities Ltd · Melbourne, Australia | 2024

- Provided technical customer success on the Moomoo trading platform — onboarding, troubleshooting and account management.
- Explained charts, indicators, trading tools and platform security features to retail and pro investors.
- Acted as the bridge between clients and engineering — feeding back product issues and feature requests.

Software Engineer

SolverCircle.com · Dhaka, Bangladesh | 2014 – 2020

- Developed full-stack web applications; led testing, debugging and system analysis.
- IoT R&D; with Arduino and embedded systems; database management and technical documentation.
- Worked directly with clients to gather requirements and deliver solutions on tight schedules.

Industry Project — Agile Software Engineering (UN SDG)

FIT5120 / FIT5122 · Monash University, Australia | 2024

- Agile/Scrum team building GreenMelb, aligned with UN SDG 11 & SDG 4.
- Sprint planning, user stories, retrospectives, persona design, ethics canvas, system architecture.
- Security testing (SQLi, XSS, CSRF) using OWASP ZAP, Burp Suite, Nmap; AWS cloud architecture and secure SDLC.

Educator / Tutor / Mentor

Bangladesh & Australia | 2008 – 2024

- 13+ years teaching HSC ICT, Mathematics, Physics, Programming and Computer Science.
- One-to-one and group tuition; created structured lesson plans, revision packs and past-paper drills.

- Specialism: number systems, digital logic, databases, programming foundations and exam technique.

EDUCATION

Master of Cybersecurity

Monash University, Australia | 2022 – 2024

Bachelor of Computer Science & Engineering

Stamford University Bangladesh | 2011 – 2017

CERTIFICATIONS

- Cyber Security Management Job Simulation — ANZ Australia / Forage (Jul 2025)
- Cyber Security Job Simulation — Deloitte Australia / Forage (Mar 2025)
- Big Data Security and Database — Ethical Hacking (Hays)
- Java Programming & Android Development — The George Washington University, USA (Mar 2018)

TECHNICAL SKILLS

- **Programming:** C, C++, Java, Python, PHP, JavaScript, SQL, MySQL, HTML, CSS
- **Cybersecurity:** OWASP ZAP, Burp Suite, Nmap, Nikto, SQLMap, Metasploit
- **Cloud & DevOps:** AWS (Lambda, S3, EC2), Oracle Cloud, Docker, Kubernetes
- **Databases:** MySQL, MongoDB, Oracle
- **Networking:** TCP/IP, VLANs, GNS3, Wireshark
- **Embedded / IoT:** Arduino, ESP32, NodeMCU, C++
- **Tools:** Git, Trello, LeanKit, MS Teams, Jira
