

MD HABIBUR RAHMAN

Recent MSc Graduate — IT & Cybersecurity | Seeking Graduate / Internship Opportunities

London, United Kingdom | +44 7983 751732 | eng.habibur.cse@gmail.com | linkedin.com/in/mdrahmann

Full UK right to work — High Potential Individual (HPI) visa, no sponsorship required | Open to relocation anywhere in the UK or internationally

PROFESSIONAL PROFILE

Motivated Master of IT (Cybersecurity) graduate with a Computer Science & Engineering background, seeking a graduate or internship role in IT, cybersecurity, project delivery or technical client-facing teams. Strong academic grounding in security governance, risk and compliance, networking and secure software practices, combined with certified project management knowledge (PMI Predictive Project Management). Recognised for clear communication, structured problem solving and rapid learning; comfortable documenting processes, analysing data and collaborating across multicultural teams.

CORE SKILLS

- Cybersecurity fundamentals: threats, vulnerabilities, defence-in-depth
- Governance, Risk & Compliance: ISO/IEC 27001, NIST CSF, UK GDPR
- Project management: predictive (waterfall) and Agile/Scrum delivery
- Networking & systems: TCP/IP, DNS, VPN, firewalls, Windows & Linux
- Cloud basics: AWS and Azure core services, identity and access
- Data & reporting: SQL queries, Excel analysis, dashboards
- Documentation: policies, procedures, risk registers, test evidence
- Stakeholder communication and technical customer support

EDUCATION

- Master of Information Technology (Cybersecurity)** 2022 - 2024
Monash University, Australia
- Coursework in cybersecurity governance, risk management, network security, secure software development and digital forensics.
 - Completed team-based capstone and lab projects using industry tooling and Agile ways of working.
- Bachelor of Science in Computer Science & Engineering** 2011 - 2017
Stamford University Bangladesh
- Foundations in programming, data structures, databases, operating systems and computer networks.
 - Final-year software project delivered end to end from requirements to deployment and documentation.

CERTIFICATIONS

- Predictive Project Management — PMI.org
- Additional self-directed study in information security governance and cloud fundamentals

ACADEMIC & PERSONAL PROJECTS

- Information Security Risk Assessment (ISO/IEC 27001)**
- Produced an asset inventory, risk register and treatment plan for a simulated SME environment.
 - Mapped controls to ISO/IEC 27001 Annex A and presented prioritised remediation recommendations.

- Secure Web Application Assessment**
- Tested a sample web application for common OWASP Top 10 weaknesses using OWASP ZAP and Burp Suite.
 - Documented findings with severity ratings, business impact and clear fix guidance.

- Agile Team Software Project**
- Worked in a Scrum team across sprints, contributing to backlog refinement, reviews and retrospectives.
 - Maintained project documentation and traceability from user stories to test results.

- Network Design & Hardening Lab**
- Designed a segmented network with VLANs, firewall rules and secure remote access.
 - Validated configuration against baseline hardening guidance and recorded evidence.

TECHNICAL SKILLS

Security	OWASP ZAP, Burp Suite, Nmap, Wireshark, SIEM concepts
Frameworks	ISO/IEC 27001, NIST CSF, CIS Controls, UK GDPR
Programming	Python, Java, C, JavaScript, SQL

Cloud & OS	AWS, Azure, Windows Server, Linux
Tools	Jira, Trello, Git, Microsoft 365, Google Workspace

SOFT SKILLS

Communication & presenting • Analytical thinking • Problem solving • Teamwork & collaboration • Time management • Attention to detail • Adaptability • Continuous learning

LANGUAGES

English (Fluent) | Bengali (Native) | Hindi & Urdu (Conversational)

INTERESTS

Cybersecurity news and CTF challenges, tutoring and mentoring students in maths and computer science, technology communities and volunteering.
